DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 7-10 and 14 rejected under 35 U.S.C. 102(b) as being clearly anticipated by JP 2941226. The reference discloses controlling a rotary tablet press such that a first molding pressure is used to adjust weight of material fed to the die of the press and a second molding pressure is used to regulate the degree of compression in order to control hardness.

Allowable Subject Matter

3. Claims 16 and 34 are allowed.

4. Claims 3-6, 11-13 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
